

# Los Angeles Daily Herald.

VOLUME III.

LOS ANGELES, WEDNESDAY MORNING, OCTOBER 14, 1874.

NUMBER 15.

## Los Angeles Herald.

Published every morning except Monday by THE LOS ANGELES CITY AND COUNTY PRINTING AND PUBLISHING CO.

OFFICE: Herald Book and Job Printing House, Spring street, opposite the Court House.

TERMS: Per annum, by mail or express, \$10.00 Six months, " " " 6.00 Three months, " " " 3.00 Delivered by carriers, per week, 25 cents

THE WEEKLY HERALD is published every Saturday morning.

Advertisements inserted at reasonable rates. All kinds of Job-Work done to compare with San Francisco in Price, Style, and Elegance of Workmanship.

Everybody is wondering why the BAZAAR is selling their goods so cheap. The reason is, they must clear out their Spring and Summer goods to make room for the immense stock of Fall and Winter goods which they will soon receive.

The BAZAAR is now giving 12 yards Best American Prints for \$1. Also, six yards 44 French and American prints for \$1. At the corner of Main and Requena streets, opposite the U. S. Hotel.

### CHAS. E. BEANE,

NOTARY PUBLIC

AND CONVEYANCER—DEEDS

correctly drawn. Office, Ground Floor,

Downey Block, Main Street, next door to

In the Oregon Legislature now in session, the Grangers have a majority in both Houses.

Our old friend, JOHN G. CAMPBELL, of Prescott, is one of the Peoples' nominees for the Legislative Council of Arizona. Of course he will be elected.

The twenty-fourth annual communication of the Grand Lodge of Free and Accepted Masons commenced in San Francisco yesterday.

The Odd Fellows of San Francisco contemplate building a magnificent new hall. It is reported that they will bid \$450,000 for the Lick property, on the corner of Fourth and market streets, with a view of securing it for a site for the new hall.

It is a mistake that CHARLIE DE LONG is not a candidate for the United States Senate from Nevada. He announces himself in the field and expresses his determination to remain there until the battle is over. CHARLIE is the ablest man of them all, but talent has no chance against money in Nevada.

The suicide mania has again broken out in San Francisco. The disease is claiming victims who have money, and they do not leave notes stating that it was all for love. The phenomena is, puzzling the savans and anatomy students. Why men with money and not in love should kill themselves is a problem that will not be solved by those sojourning on this side of the river Jordan. Impecuniosity and unrequited affection are ample reasons for an immediate shuffling off of this mortal coil and when a man has either one of them bad, he may be excused for putting a period to his existence by putting a pistol to his head; but when men with a full purse and a whole heart do those things, there is something wrong in San Francisco.

The Chamber of Commerce last evening referred the petition of W. B. CALDWELL for an appropriation of \$150 to aid in surveying a route for a wagon road between this city and Panamint, to the consideration of a special committee. We presume the appropriation will be made and Mr. CALDWELL directed to proceed at once with the survey. From information already received, it seems almost certain that the route is practicable. Mr. CALDWELL has been over the country between here and Panamint a great many times and he is confident that he can find a shorter and better route and one on which there will be no long drives from water to water. He is a man of energy and experience and if our citizens give him the slight assistance asked, we predict that he will locate a direct route to Panamint which will be worth many thousands of dollars to Los Angeles.

#### Wilmington Harbor.

A great deal has been said about Wilmington harbor—a great deal in which ignorance, jealousy and disregard of facts were more conspicuous than knowledge of the question discussed. A good many people have decided most emphatically that a harbor could not be made at Wilmington. It is true that these sapient gentlemen do not know much about harbors nor a great deal about anything else, but they spend their opinions as freely as if they were based on a thousand years of experience and a million years of scientific study. The facts of the case are very different from the complexion put upon it by these enemies of Wilmington. Every day's labor adds evidence to the mass already accumulated that an excellent harbor will soon be completed at Wilmington. The rapidly increasing business at the port has caused the railroad company to take steps toward increasing their facilities for moving the freight which passes over the wharf. The propriety and expense of extending their track, by means of a wharf, from its present terminus to deep water. The proposition was met by General BOSCHKE, who has a Government contract for excavating Wilmington Harbor, with an offer to dig a channel fifteen feet deep and of the requisite width from deep water up to the company's wharf for one-half the cost of building the wharf. General BOSCHKE further proposed to keep this channel the contract depth for one-half the expense of keeping the wharf in repair. This sort of an offer from an experienced engineer, who is now engaged in dredging in the same quality of earth through which the channel is to be excavated, demonstrates that the work of dredging Wilmington Harbor is not difficult, and that once the harbor is completed no serious difficulty in the way of filling up need be apprehended.

#### Fuel.

We cannot endorse the opinion expressed by a correspondent in the HERALD of last Sunday morning to the effect that fuel will become an item of considerable expense to the people of Los Angeles valley. It is true that we have no extensive forests from which to draw, but it is also true that timber may be grown easily and rapidly in nearly every portion of the valley. The willow hedges around farms furnish a large amount of wood each year, and the stock increases year

after year. Other qualities of timber may be grown as easily and almost as rapidly as the willow. But our great and ultimately our chief stock of fuel is as yet comparatively untouched. We mean the brea, of which there are several inexhaustible mines in the valley. The gas works in this city are using a considerable amount of brea, and a few farmers are running engines with it. Generally speaking, however, the article is not used. In time all of our steam machinery will be run with brea, and we predict that it will supersede coal wherever any considerable amount of heat is required. In point of fact, the valley is better supplied with fuel than it would be were there no brea deposits and the mountain sides covered with timber. For culinary and other domestic purposes the supply of wood is ample, and will always equal the demand.

#### State Fair Gambling.

The opinion expressed by the HERALD some weeks ago to the effect that too great a proportion of the money appropriated from the Treasury for the purpose of aiding and assisting the State Fair was used in making up purses for horse-racing, is endorsed by a number of other influential journals, and it is more than probable that no appropriation of this character will be made from the people's pockets by the next Legislature. The argument that the masses who contribute the funds for slow and possibly often unfair horse-races, derive very little knowledge or amusement from the trials of speed or the schemes for making the horse lose on which the uninitiated have staked their money, cannot be controverted. And the other side argument that a State Fair cannot be made a success without a speed programme, is not proven to be true. It is probable that the parties who make the most noise and assume the control and management of the State Fair are more interested in the races than any other considerable number who attend the exhibition; but it is very probable that if this class did not attend at all, the Fair would be equally successful and more beneficial to the people in general. We doubt very much if the majority of the tax-payers would, if the opportunity offered, express a willingness to be taxed in support of a horse-race.

#### Suicide in Davisville.

DAVISVILLE, October 19th.—Jacob Fug, a Swiss, committed suicide this afternoon by shooting himself through the head, leaving the following letter on the table:

OH, DEAR BROTHER: I must write you the sad account of the end of my life. I am innocent, and have done no harm. Some persons accuse me of it but, dear brother, I will rather die than insult you and my whole family. Farewell! I remain your own dear brother. My kindest regards to all our kin folks. I die as innocent as a new-born babe. My kindest regards. Your brother, "If you can, come to my funeral."

JACOB FUG.

#### A Girl Terribly Burned.

SAN DIEGO, October 11.—Last evening Hannah Barrows, aged 14, was terribly burned, while attempting to light a fire in a stove. Her clothes became ignited, and she ran out into the street all in a blaze. H. M. Covert happened to be riding by at the time, and he dismounted and attempted to smother the flames. He tore her burning clothes from her and carried her into the house. Dr. Fenn attended the poor girl, who is terribly burned about the hips and back. Not much hopes of her recovery. Mr. Covert burned his hands and wrists in a terrible manner.

#### Pot of Gold Found.

SAN LUIS OBISPO, October 9th.—A workman engaged in tearing down an old adobe building, the former residence of a famous bandit, unearthed a pot of gold two days since, and succeeded in getting it away. He now claims that he was robbed of it. Various speculations are indulged in regarding it, but from what can be learned of the workmen engaged with him, there was at least \$5,000.

#### More of Those Poll Tax Receipts.

PLACERVILLE, October 6th.—The deputy collector of taxes for this county returned to-day from a business trip, collecting a hospital tax from seven or eight hundred Chinamen who are employed on the great ditch in course of construction. They all held San Francisco poll tax receipts, issued since July by Morgan, Casey and Eckstein, and a few by Rosener, the latter differing materially from the former.

#### Railroad Completed—Fatal Accident.

SALINAS, October 10th.—The Grangers' narrow-gauge railroad from Monterey to Salinas City, is at last completed, and will be in running order in a few days.

A few days ago as one of the workmen in attempting to jump on the cars while they were in motion, slipped and fell, one of the flat cars passing over him. A physician was immediately summoned, but the man, on his arrival, was past recovery.

#### Mass Meeting at Virginia City.

VIRGINIA CITY, October 10th.—A Republican mass meeting was held here this evening, over 2,000 people attending. The speakers were Chas. E. DeLong and Bob Lindsay, Will Campbell, Stevens and Dr. Roscoe. DeLong declared himself as a candidate for Senator. He was frequently applauded, and was the only speaker who was listened to with respect. Sutro was not present.

#### Stolen Dust Recovered.

READING, October 9.—Officer Hume returned here this evening, bringing with him 90 ounces of gold dust which was buried by Grady, one of the robbers of Wells, Fargo & Co.'s treasure boxes, three years ago. It was unearthed about 100 miles from here, in Lassen county.

Sixteen car-loads of tea were shipped East on Tuesday.

## Latest Telegrams.

### EASTERN.

**A Few Indians Killed.**  
CHICAGO, October 12th.—A dispatch from Fort Worth, Texas, says that General McKenzie, after repelling two attacks by the Indians, on the 27th and 29th of September, marched all the night of the 27th and surprised at sunrise the following morning five camps of Cheyennes and their allies, situated in the Cañon Llito Blanco, on Jute Creek, near the fork of Red River. The troops destroyed over one hundred lodges and their entire outfit was captured, consisting of 1,424 horses and mules, of which 1,048 were at once killed. The bodies of four Indians were brought in. Our loss is one soldier slightly wounded. General McKenzie is in pursuit with thirty days supplies.

**Miscellaneous Items.**  
NEW YORK, October 12th.—Ben Butler has been re-nominated for Congress from the Sixth District of Massachusetts.

The Tennessee rioters and murderers are to be tried in the U. S. Courts.

Twenty-five lodges of Klowns, under Santander, have surrendered to Gen. Neil. Santander and Bigbee are held as hostages.

The Southern Republican Convention meets at Chattanooga to-day. It is probable that Brooks, of Kansas, will be present. It is reported that delegates are instructed not to endorse the Civil Rights Bill, or Third Term.

A fire in Baltimore, this morning, destroyed the Baltimore Opera House and several other buildings. Loss, \$150,000. At last accounts the fire was not extinguished.

**Flight to New Orleans.**  
NEW ORLEANS, October 12.—A fight occurred yesterday noon at the old Vacherie road store in James Parish, between the Bore and Hogan Republican factions. One party was assembled to ratify the compromise with the Conservatives, while the other interfered. The result was a fight, in which several were wounded but none killed.

**Important Land Office Decision Affirmed.**  
WASHINGTON, October 10th.—The Acting Secretary of the Interior to-day affirmed the decision of the Commissioner of the General Land Office rejecting the claims of the State of Nevada and Central Pacific Railroad to some six hundred acres of land near the Comstock lode, and reserving them as mineral.

**Third Term Question.**  
PATTERSON, (N. J.) October 10th.—Secretary Robeson addressed an immense audience at a mass meeting last evening. In the course of his speech he said that neither the administration nor its chief would ever be found outside of the Republican party nor setting contrary to the established traditions of the country. The latter remark was understood to refer to the third term, and was vociferously applauded. After the meeting Secretary Robeson said that President Grant had no idea of a third term and only avoided giving official expression of his opinion on the matter less he should seem to attach to it too much importance.

**A False Statement.**  
NEW YORK, October 12th.—*El Comercio*, a Spanish newspaper published in this city, prints a card from Admiral Polo de Barnabe, late Minister to Washington, with regard to the story of the session of Porto Rico to Germany, which originally appeared in the *Freeman's Journal*. The Admiral says that the dispatches which were incorporated in the story have no real existence. It is likewise untrue that he had sent in his resignation as Minister Plenipotentiary from Spain to Washington, since the cause of his leaving that office was that the Minister of Marine required his services in the Navy. The Admiral concludes by saying that the whole story is a network of absurd and contemptible calumnies.

**Dastardly Attempt to Injure Trotting Horses.**  
BROOKLYN, October 10th.—A dastardly attempt to kill some trotting horses was made by some unknown person yesterday, previous to the race at the Prospect Park grounds. Four fine horses were disabled by croton oil being poured on their bodies and into their mouths. The horses injured are Arthur, Thomas L. Young, Fanny and Palmouth. Fanny will lose an eye.

**A Conservative Proposition to the President.**  
WASHINGTON, October 10th.—A letter has been received here addressed to President Grant from a prominent Conservative politician in Massachusetts, who argues that the only certain way to restore peace and prosperity to the South is for Congress to pass an Act authorizing the payment to the people of the South of the full amount due for Quartermaster's and Commissary stores taken by the Union army in the South during the war, and also to refund the cotton tax. The letter has been referred to the Attorney-General.

**Telegraphic Improvements for the American Telegraph Company.**  
OMAHA, October 10th.—The Atlantic and Pacific Telegraph Company to-day completed a new line between Omaha and Chicago, thereby greatly increasing their facilities between these points.

### FOREIGN.

**Foreign Items.**  
LONDON, October 13th.—The Carlists entered Fantarba under cover of a fog, but were driven out of the town again. At the same time they made an attack on Irum and San Marcial, but were repulsed with loss.

A battle of two hours' duration occurred between the Carlists and Republicans on the 10th, at Axistia, Di Dayana. The Carlists were defeated, loss, fifty killed.

General Mitre has assumed command of the insurgent forces of the Argentine Republic.

J. Baptiste Bill has been elected President of Paraguay.

### SAN FRANCISCO.

**Mining Stocks—Wreck—Commissioners—Oregon's Fair.**  
SAN FRANCISCO, October 12th.—Consolidated Virginia paid a dividend of three dollars per share to-day; Crown point also made a dividend of the same amount.

The schooner *Lizzie*, which has just arrived from a whaling cruise, reports that a boat containing four seamen was lost in a tide rip on the 20th of last July. All efforts to save the men were futile. Following is a minute of their loss: Drowned—J. Barnard and N. Convaro, Santa Barbara; A. Delaw, Rochester, New York; Peter Silk, San Francisco.

Gov. Booth to-day commissioned

Wm. E. Meek Regent of the State University, vice J. W. Dwinelle, term expired; also, commissioned C. B. Richardson, Notary Public for Panamint, Inyo county.

SAN FRANCISCO, October 13th.—The Oregon State Fair opened yesterday under favorable auspices.

The steamer *San Salvador*, 35 days from Panama, has arrived.

### NEW TO-DAY.

**All is not Gold that Glitters.**  
A small store with a large assortment of the finest brands of imported and domestic Cigars, Cuffs, Shirts, Ties, Gloves, et cetera, is better than a large place with inferior quality of goods, therefore it is to every body's interest to buy at

MAIN ST., next to W. E. & Co.'s Express.  
The latest Illustrated Papers always on hand.

**Turn-Verein Germania.**  
GUT HEIL!

## THE IDENTICAL.

The Identical place in the angelic city—

Have you found it, friend?—if not, 'tis a pity—

Every one praises it in prose and in ditty.

IDENTICAL as being both neat and complete,

Defying all others in prices to compete,

Every one knows that its stock can't be beat.

Nothing like leading all others in trade—

Tobaccos, Cigars, Snuffs, Soaps and Pomade,

In every variety and in every grade.

Collars, Cuffs, Shirts, Ties, Gloves, et cetera,

At wholesale and retail, low prices, you bet, eh!

Look! Cohen & Davis don't ever get fretty.

**38 MAIN STREET.**

Don't mistake place.

PROSPER PHILIP.

W. A. MATTHEWS

(Late of the L. A. & N. P. Railroad.)

LOCAL BREVITIES.

Marx Max, a native of Prussia, was naturalized in the County Court yesterday.

It is announced that Professor Carr, late of the State University, will soon visit Los Angeles.

A special meeting of the Turn-Verein Germania will be held at their hall to-morrow evening.

Attention is directed to Chamberlin & Bancroft's advertisement of a fine residence for sale, furnished throughout.

The schooner Cora, Capt. Wheeler, arrived at Wilmington Monday, seven days from Casper Creek, with 220,000 feet of lumber, for J. G. Jackson & Co.

The Ladies' Fair for the benefit of the Sisters' Orphan Asylum will be opened at Turn-Verein Hall next Tuesday.

The Irish Literary and Social Club will give their first grand picnic at the Arroyo Seco on Sunday October 25th. A general good time is expected, and all are invited to attend.

A. Crum embezzled a horse belonging to Barrows & Co., some time since and made his way to San Bernardino. A warrant was yesterday sworn out for his arrest and placed in the hands of the officers.

M. W. Perry is doing the best of work in his line at the bindery, Temple street, and at prices which will compete successfully with those of San Francisco establishments. Give him a call when you have binding to be done.

The steamer Constantine arrived from San Francisco yesterday morning. She will go as far as Anaheim landing, and returning leave Wilmington this evening for San Francisco. Passengers will take to 4 p. m. train.

Complaint was entered in Justice Gray's Court yesterday against one Orchelblumme for assault and battery committed upon Mrs. Clara Snyder, an old woman who is said to be partially deranged. The case will probably come up for trial to-day.

A private telegram received from San Francisco yesterday, announces that Florence Kent, Kate Denin and dramatic company will visit Los Angeles soon to furnish a series of entertainments. They will probably be here during fair week.

A stream of water from Mr. Beaudry's system of water works was kept in play on Bellevue Terrace yesterday for irrigating purposes. The water was brought in a large volume through six-inch pipes and ejected through an inch nozzle throwing a stream to the distance of sixty feet. This on the heretofore "barren" hills was quite a refreshing sight.

M. J. Banks made his appearance before Justice Gray yesterday to answer the charge of stealing wood from a neighbor. We understand that this is the only complaint now remaining against him, the former having been discharged. Banks has not evaded the service of pains upon him by the officers, according to his statement.

The passengers who arrived by the Constantine yesterday morning spoke in the highest terms of Capt. Debney and his officers. The vessel was crowded with passengers, and the attention and kindness of those in command made all comfortable. We can cheerfully recommend Capt. Debney to the traveling public.

We had a call yesterday from Mr. Howard R. Hetrick, late city editor of the St. Louis (Mo.) Times. Mr. Hetrick visits California for relaxation from a long and strong pull in the editorial harness, and will, perhaps, remain with us. In the newspaper field, or any other of equal usefulness, Los Angeles needs men of such enterprise and experience, and we hope to number Mr. Hetrick among our permanent citizens.

The Southern District Agricultural Society have awarded the privileges of business at the course during the racing week, commencing Monday, October 26th, to the highest bidder, as follows: Bar at race track, to Henry Dockweiler, for \$900; Pool selling and paying in town, to Wolf & Gates, \$155; Soda fountain at rink, A. L. Ross, \$30; Stock selling at Park, to Noyes & Durfee, for 4 of 5 per cent, on all sales; Fruit selling at race track, Nelson Williamson, \$30, and eating stand at race track to Sam S. Maben, on percentage. Badges for hack drivers, with the track privileges attached, were fixed at \$5 for the entire week.

Spring and Sixth Street Railroad.

In company with Judge Widney, Superintendent of the Spring and Sixth Street Railroad, we yesterday rode over the line of the northern extension as far as the new depot grounds. About twenty laborers are now engaged in grading and laying track, and the work is being pushed with the utmost expedition. From the present terminus of the road at the Pico House to the point above Sonora where the new franchise commences, the road-bed proper is entirely graded, though the street in some places has not been brought down to its proper level. The company design grading not only sufficient space for a track, but also the entire street, thus obviating any expenditure on the part of property owners. About one-half of the track has been laid along the line granted by the first franchise, and the whole of it will probably be completed next week. The question of grades through a portion of Sonora is still unsettled between the company and the Council, but it is hoped that this difficulty may be adjusted at the meeting of the Council to-morrow. Judge Widney informs us that another car for the road is nearly completed in the works at San Francisco and will be ready for

shipment in a short time. We may look for a speedy completion of the whole road before the wet weather sets in, from present indications. The activity and thoroughness which the managers of the road have displayed will be appreciated by those who can see the advantages which the enterprise gives to Los Angeles.

Chamber of Commerce.

A meeting of the Directors of the Chamber of Commerce was held upon call at the room of Judge Sepulveda last night. Present: Messrs. Lazard, Lord, Griffith, Newmark, R. M. Widney, Lips, and Caswell. A number of other prominent citizens were also present, including E. E. Hewitt, Engineer Crawford, Col Moore, H. Hellman, Capt. Benne and J. L. Ward. The assembly was called to order by President Lazard, who stated the object of the meeting to be the consideration of a petition in the hands of the Secretary, Mr. I. W. Lord. The petition was then read and was as follows:

To the President and Directors of the Los Angeles Chamber of Commerce:

GENTLEMEN:—The undersigned, in view of the great commercial importance to Los Angeles of controlling the traffic and freights to Panamint Mining District and believing by proper exploitation that near routes may be found from the mouth of Soledad Cañon, more direct and better than any other route, would respectfully solicit your honorable body to call a meeting and make, if possible, an appropriation towards defraying the expense of such exploration. Signed by Caswell & Ellis, I. W. Hellman and other firms.

Messrs. L. J. Ward, Crawford and others made explanatory remarks, some of them taking the ground that it would be impossible to transport freight by the San Bernardino route.

Mr. Ward stated that Mr. A. B. Caldwell, the promoter of the petition and an old Cerrito Grange teamster wished an appropriation of one hundred and fifty dollars for the purpose of making a more thorough survey than he would, or could if he was compelled to make the survey at his own expense. Mr. Caswell spoke to the same effect and endorsed Mr. Caldwell as entirely trustworthy. Mr. Crawford made further explanations. Mr. Griffin thought it advisable to make the appropriation. After some discussion Mr. I. W. Lord moved that the question be referred to the Committee on Roads and Highways with the privilege of expending \$150 on the part of the Board for exploration.

A motion was made that the above named committee, a special committee be appointed for the purpose consisting of Messrs. Caswell, Ward, Hewitt, Moore and Osborne. The motion was amended was carried by unanimous vote. It was suggested that the regular annual meeting of the Chamber occurs on the first Monday in November and that due notice thereof be given; also that the dues from members be collected.

Adjourned.

The New Postoffice Building.

Since work has been commenced on the new Postoffice building to be erected by Mr. Temple adjoining the HERALD office, many no doubt are curious to know what kind of a structure it will be. For the benefit of such our reporter yesterday interviewed Mr. E. J. Weston, the architect, and learned the following facts concerning it:

The building will be 48x80 feet, two stories and built of brick, stuccoed. The lower story will contain two store rooms 22x80 feet, the one on the north being assigned to the Postoffice. It will be an open front similar to the present Postoffice and fitted up by the Postmaster with boxes, apartments and offices according to his taste in the matter. The columns of the front will be of the same style as those in the HERALD building, the whole facade being of the modern Italian style of architecture. It will be ornamental, having a heavy cornice and entablature, with brackets, and a Grecian pediment extending from the front. The windows will be blocked and stuccoed, corresponding in ornament with the other portions of the front. From the windows of the second story, a balcony will extend the whole length of the building on the street. The upper story will be fitted up expressly for a Grange Hall. The entrance and stair-way will be on the south-eastern corner of the building leading from Spring street. From the top of the stairs a hall extends to the rear, where an entrance-way four feet in width leads off to three small rooms—a reception room 11x16 feet, ladies' retiring room 16x17, and a ladies' dressing room 12x17. These rooms are lighted by windows in the rear and will be fitted up with all conveniences for the uses for which they are designed. Two doors lead from the entrance to the hall in front. This will be 30x60 feet with 16 foot ceiling, and arranged with platforms along the sides and rostrums for officers. All the necessary conveniences for a lodge-room will be secured, and when completed, it will be the most commodious and comfortable hall of the kind in the city. The contract for the brick-work has been let to Mr. John Mayer and the carpenter-work will be done under the supervision of Mr. Harritt. It is the design of Mr. Temple to have the building completed and ready for occupancy by the close of the present year. When finished it will be one of the most tasty and elegant structures in the city, and which it will occupy.

A Card.

EDITOR HERALD: I was considerably surprised at the discourtesy shown to myself and family by the proprietor of the Japanese troupe, appearing in this city. Last Wednesday and Saturday evenings the whole troupe availed themselves of the courtesy extended to them by Mr. Morse and the concert given on those evenings by Miss Fannie Martin. On Saturday evening I was requested by Mr. Marshall to announce from the stage the performance of the Japanese, which I did, and at the same time an invitation was extended to myself and family to see their performance. This evening I presented my card, and after taking our seats we were rudely requested to leave. I tried to explain to Mr. Marshall, but received insult for my pains. Now I feel that this kind of thing is reprehensible. He was willing to receive favors, but not to extend them. To say the least, it is ungentlemanly conduct, and unusual to the experience of yours truly.

A. H. HAYVELL.  
Los Angeles, October 13, 1914.

A GRAND OLD POEM.

Who shall judge a man by his manners? Who shall know him by his dress? Princes may be in prison, Princes at for something less; May be the golden era, Of the deepest thought and feeling, Sad and sweet could be no more.

There are springs of crystal nectar, Ever welling out of stone; There are purple buds and golden hidden, crushed by the foot of God, who counts by souls, not dresses, Loves and prospers you and mine; While He values through the highest, But as pebbles in the sea.

Man, upraised against his fellows, Off forgets his fellow-kind, Masters, rulers, lord remember, That your meanness binds are men; Men of honor, men of feeling, Men by thought and men by fame, Claiming equal rights to sunshine In a man's ennobling name.

There are foam-embroidered oceans, There are little weed-lad hills; There are fields of high and low, There are cedars on the hills; God, who counts by souls, not stations, Loves and prospers you and mine; For him all famed distinctions, Are as pebbles in the sea.

Tolling bells alone are builders Of a nation's wealth and fame; Titled laciness is pensioned, Fed and fattened, By the sweat of others' foreheads, Living only to rejoice, While the poor man's outraged freedom Vainly lingers up his voice.

Truth and justice are eternal; Bora with leveling light; Secret wrongs shall never prosper While there is a sunny light; God, whose word is truth, singing, Boundless love to you and me, Sinks oppression with his title As the pebbles in the sea.

—Selected.

THE JAPANESE TROUPE—THIRD NIGHT.

Turn-Verein Hall was again filled to its utmost capacity last night to witness the wonderful performance of Marshall's Japanese Troupe. The programme was changed so as to introduce many new acts and to retain some of the most difficult and pleasing of the former entertainments. The tree-and-ladder trick, which created such a sensation on the first night was repeated, and lost none of its original interest for the spectators. As a feat of strength and at the same time an exhibition of nice balancing, it is seldom if ever surpassed. Another trick, by balancing, by which a ladder is supported with a Japanese umbrella, was also a marvel in its way. "Yassu Geero" is the name of the deft-footed artist who treated the audience to the several feats of this kind. Another one—Too Zoo—did some very creditable tight-rope performances and Tita Sabro, the juggler, executed a little magic with bits of tissue paper, which he sustained in the air by means of a fan and made to do the most various motions of flying butterflies. At the will of the performer they would light on the tip of his finger or on a fan, and then fly up again as natural as life. Um Ketele, the top-spinner, so performed some curious tricks that line. But first, last and all the time little All Right was the one most popular with the audience, being, as the ladies say, "cute," as well as exceedingly apt in all of his parts. To-night will be the farewell performance of the troupe, and the hall will doubtless be crowded. Those who wish seats should go early.

SOME FACTS ABOUT NAVIGATION.

EDITOR HERALD: We are an inland city, but are no whit less interested in sea transit. By the proper model and rig of the craft employed to move our products to the market and bring what we require in return, it is possible to reduce the cost of transportation to a merely nominal figure. It is most jealously guarded and kept a secret—this cost of moving freight and passengers by sea—and the public is humbugged in many ways by those who would like to keep control of the carrying trade. In the private instructions given by the great steamship lines to their officers, could the following rules, or in substance, this is the effect: Engineers are forbidden to communicate to passengers the amount of fuel consumed; the yards and spars, instead of being, as they should be, constructed for use and to increase the speed of the ships, are only shams and merely ornamental; for in the private instructions they are to be hoisted or taken down as soon as the ships are well on their way; the result of this is that when one of these immense hulks has an accident to their machinery, they are practically helpless and the crowd of human freight at the mercy of ocean winds and currents, and these currents many times being more than strong enough to counteract a fair wind with all the sail that can be spread on the top spars that are in use. It may be said that this is a very old story, and that ships are well on their way, and the general public are kept in the most profound ignorance as to good reasons to those holding marine stock. Look at the developments made by the Hon. Mr. Plymson in the House of Parliament, showing that the naval architects of the world have adhered to that should have gone out of existence long since, simply to save some old hulks, and for fear freights might come down if it were publicly known that these hulks were infinitely better and cheaper models. This is one of the weighty reasons for a thorough industrial and practical education that every youth should receive; for it is only by that experience gained under those who have worked out these vital problems can we expect an emancipation eventually from the thralldom of the monopolies that now hold life, property and happiness too often in their keeping. It is proposed to make this a leading feature in our industrial college—that of modeling, either for improved models of ocean or land transit; for in this fast age it is right that safety as well as cheapness and speed should be known to be secure to every one who has a mile to travel or a pound of freight to move.

The practical lessons of naval and land engineering are among the most interesting of studies, and are only second to those of hygiene. It is hoped that at our meeting on the 15th, enough of vitality will be infused into the organization to proceed at once with the sanitary hotel and industrial college, thus giving opportunities to educate both young and old in those much needed but now neglected branches.

F. M. SHAW.

The No Plus Ultra Copper Mining Company, at a meeting held at Milerton last Sunday, moved its business office to Fresno. The company shipped one hundred and thirty tons of copper ore to San Francisco last month. The mine is now paying a small dividend.

Fuel.

LOS ANGELES, October 13th 1914. EDITOR HERALD: In your issue of the 11th instant, an article appears over the signature of "Citizen" wherein he complains of the high price of fuel. In answer to "Citizen" I would say that I sell coal by the quantity for \$18 per ton, and would be happy to furnish him his thirty dollars worth per month at the above rates. And I do not believe that any number of citizens can combine and purchase their coal in San Francisco for less than \$18 per ton in the long run.

Very respectfully,  
I. B. FERUSON,  
Agent Los Angeles Coal Company.

Splendid gents suits. Coat pants and vest, for \$12, very heavy. Gents Satisfy pants \$2.00 and \$2.50 at the Bazaar corner of Main and Requena streets.

The quickest way to make a fortune is to buy your goods at the Bazaar, corner of Main and Requena streets.

CITY AND COUNTY OFFICIAL PAPER.  
WEDNESDAY, OCT. 14, 1874.

## Annual Election.

On the last regular meeting in October it will be the duty of the Granges to elect officers for the ensuing year. This is a matter of no small importance. On the efficiency of officers of subordinate Granges depend, to a great extent, the prosperity of the Order. See to it, brothers and sisters, that your best material is selected. Let selfishness and personal ambition be kept in abeyance, and select only those of superior ability to fill your offices. Most of the Granges have had several months experience, and have learned who among their number are efficient, zealous workers. Our experience thus far has shown us that there is work to do in connection with Grange duties, and workers should be chosen to do it. For your Master, especially, be careful to select your very best man, or woman, if she be the more competent, not only to conduct the business of your Grange, but to represent you at the State Grange.—Exchange.

## State Grange.

The following Committees have been appointed by the State Grange:

On Commercial Relations—Shinn, Dean and Leonard.

On Co-operation and Transportation—Beckins, Eckson, Cutler, Wolf and Inman.

On Education and Labor—Matrons Carr and Dean, and Mr. Meyer.

On State University—Wright, Abbott and Baxter.

Committee on Immigration—Abbott, Earl, Spencer, Carrington and Dean.

On Legislation—Spencer, Coe, Merry, Inman and Haile.

Mr. Wright moved that a Committee be appointed on National Finance. Carried.

## Pacific Coast Items.

It is rumored that the Hon. Thomas Lindley, ex-State Treasurer and banker at Grass Valley, will take the contract for grading the Colfax and Nevada narrow-gauge Railroad.

The dam of the South Yuba Canal Company at Fordyce valley, near Meadow Lake, which is now building, will cost, when finished, \$200,000. It will be the most costly work of the kind on this coast.

Kern county is destined soon to become one of the prominent tobacco counties of this State. A number of persons having made experiments during the past season, and having demonstrated that it can be raised successfully, many others will give it trial next season. A gentleman in Kern Valley, this season, had some forty thousand plants, and sold his entire crop at thirteen cents per pound for sheep-dip.

J. E. Carr has a large-sized cockatoo at his ranch that makes the best of adverse circumstances. He has always had a mate of his own species until the present season, when, being deprived of his companion, he has taken up with a small white pullet of the barn-yard species. The twain go regularly each day into the woods back of the house, and at the regular time return to the yard, cackling in the most boisterous manner. It is thought the pullet has a nest-full of eggs somewhere, but the most diligent search has thus far failed to discover its whereabouts. The owner of the bird has named him "Becher."—Nevada Transcript.

## COURT REPORTS.

## MISCELLANEOUS.

## SPECIAL NOTICE

## SOUTHERN DISTRICT

## Agricultural Society

As nearly one-half of the stock of the Society remains unsold, it is the desire of the Directors to make the Society a favorite one with the people of the entire District; as the title to the grounds is perfect, and as the land which each share carries is worth almost the par value of a share, and it is the intention of the Society to divide up the unsold stock on the 7th day of November next, notice is given to all residents of the District that they may purchase stock, as long as it lasts, at \$70 per share (the amount now paid by fourteen assessments) and liable to \$20 more assessments in the course of two or three years, or \$100 per share, which fully pays up. This offer to remain open until Nov. 5, 1874.

By direction of the Society.

JOHN G. DOWNEY, President.

BEN. C. THUMAN, Secretary.
